

### Presumptive translation notes:

- I continued to write "Piller" within quotation marks like I did in the previous volume, but it didn't really amount to anything. I don't think Higashimura knows how to use these. Therefore, I omitted further uses that also didn't seem to have any point.
- Shiguro laughs too much and his "he he he's too" always fill over the page. It got really annoying after a while. I might have forgotten to write it on a few spots.
- I romanized "Vathalla" like that because I'm assuming it's a reference to Vathalla. Seems to make sense.
- As always, you can contact me on my blog below or via Twitter @OppaiMissile if you want to for whatever reason.

# Ch.V Cyber Beast vs. Cyber Beast

Ch.V Cyber Beast vs. Cyber Beast

Someone is  
controlling those  
Cyber Beasts,  
somehow!

But this  
pack is  
clearly  
targeting  
the two  
of us.

Thank  
you

I gave her some  
medicine, but  
she needs to  
rest for a  
while...

other

Don't  
mention it  
at times  
like this, we  
must help  
each...

They haven't  
given up yet.

Oh-what  
are you  
doing?!

Right  
now

Now I need  
you to leave  
this place.

Like it or not, the enemies are coming! Get out!

As long as Faded can't move, I can't leave!

Wh-What the hell are you talking about? This is our house!

You're the one who should leave!

It's dangerous for you to stay here!

Dead?

In that case, shoot me! Just kill me right here!

If we leave, we'll just die anyway, no matter where we go!

You're being unreasonable! There's a snow storm out there!

ugh

All you're  
doing is  
increasing the  
number of  
survivors!

If you keep  
running, you'll  
only get more  
and more  
people  
involved.

Kyaaaaah!

Come  
on!

It's fine...  
there's no hurry.

And his own machine can't fly freely in this weather...

Cyber Beasts who possess their own will can only be handled by those they have chosen...

I'll drive him into a corner!

I'll corner him little by little!

He's already running out of options... there's no need to hurry!

Oh, I can already see you looking before me and begging for my forgiveness! Haha!

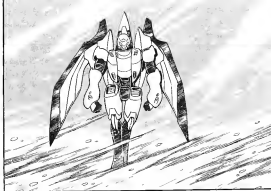

...you don't really  
have any options  
right now other  
than fighting alone.  
Isn't that right?

Even  
though you  
know you  
can't win...

He he he!  
So, you came  
out all alone.  
Sissu! That's  
good! That's  
very good!

Come  
on!  
Fight!

Fight  
until you've  
exhausted  
all of your  
strength!

What?  
A  
trap?!

Calm  
down,  
you  
fool!

Your bones  
can't be  
harmed by  
a little fire  
like that!

There's  
only one  
unit that  
didn't cover  
before the  
flame!

There  
you are,  
sleeping!

That's the  
commanding  
unit... which  
means...

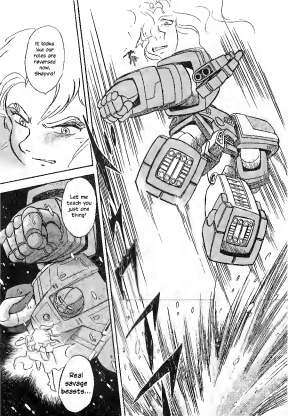

How are  
you piloting  
that unit?!

Why?!

It looks  
but our  
roles are  
reversed  
now,  
Shinn!

Let me  
teach you  
just one  
thing!

Real  
savage  
beasts...

By the way, this is how those footprints on the first page were made.

And this is what that Dancouge looked like seen from behind.

## Ch.VI The Wrecked Town

That day...

It's all right.

And then, finally...

...one of the Cyber-Beast Force destroyed a "Fox" base for the 12th time.

You didn't crush it, did you?

We did it!

What about the computer core?!

...the "Pillar", the main stronghold of the "Fox".

...we acquired a clue on the whereabouts of .

Now we can fulfill the promise we made to the Colonel.

# Ch.VI The Wrecked Town

Fortunately located near the border between alien territories, this town could be said to be a natural fortress.

A town that was taken back from the aliens by the human resistance.

Hey, Yum-dan! Check this out!

Many people seeking refuge from the "Fox" gathered here upon hearing the rumors.

As a result...

Here it's possible for people to make stuff like this.

That's for sale!

...this became a place where people began to live normal lives again.

A restaurant? Sure! Okay!

All right! Once Shou and Shouko are back, let's go to a restaurant!

Um, what's that?

Wow, amazing! So pretty!

Shap-  
ping?

Shap-  
ping?

Shap-  
ping?

Good-  
bye?  
What?

I'm here  
to say  
goodbye,  
Shou.

Yes, it's a  
shame, really.  
I wanted to  
have more fun  
with you...  
I even  
wanted to  
make you  
my little  
brother...  
however...

You  
became  
too  
strong

You people  
just went  
too far

I have no  
choice but  
to end this  
now!

The  
"Pillar" has  
decreed it.

Together  
with this  
entire  
town...

I'll have  
you  
disappear.

You should  
have kept  
your  
actions to a  
moderate level!  
You fool!

Don't  
fuck  
with  
me!

You people  
looked for  
the location  
of the  
"Pillar"...

...and you  
finally found  
a map to it!

What's  
going  
on?

What?

The  
"Pillar" will  
absolutely  
not forgive  
that!

Ha ha ha!  
It's useless!  
No matter  
what you  
do now...

What?

You  
can't even  
run away  
anymore—

...you  
can't  
win!

...and  
that's  
because

The weapon  
that literally  
crushed every  
major city in  
the world  
during the  
"Foe" invasion  
13 years ago...

Ha ha ha!  
That's  
right!  
It's the  
Megalop-  
Pressure!

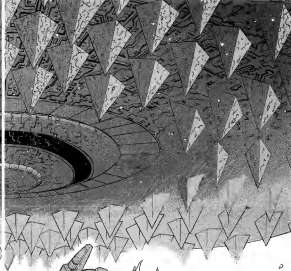

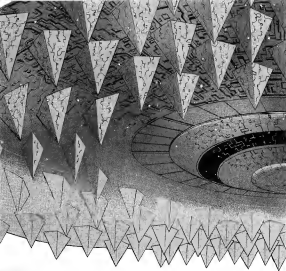

...a flying  
canopy 6  
kilometers  
wide!

Dancouga!

Ku!

Maximize  
the  
Graviton  
Field!

Here it  
comes!

Expand the Graviton Field to cover the whole town!

We have to hold this at least until the town is evacuated!

Impossible!  
We can't keep this up!

That thing has eighty thousand times more mass than Dancouga!

Expanding the fold will only make it disappear that much faster!

Even using all of its power... Dancouga can't sustain this much!

Aahh?!

Now  
that it  
has come  
to this!

That's  
right, it's  
useless!  
anything  
you do is  
useless!

There's  
no escape  
for you!

You're  
going to  
be crushed  
together  
with this  
town!

...then maybe  
you could  
have saved  
yourselves

...the moment  
you saw this  
flying saucer,  
without even  
looking back ..

If you  
had  
started  
running...

Oh,  
right...  
Actually,  
you did  
have one  
way out  
of this

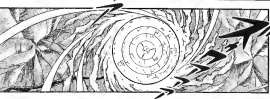

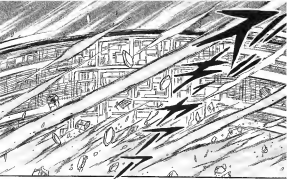

Still some...

So I see

The task has been completed

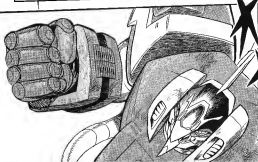

He he he he he he

???

*Somocoy  
has entered  
the ship  
from the  
crack!*

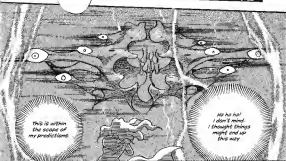

Agh...  
How?

How  
is this  
possible?

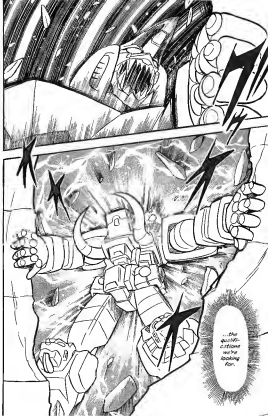

No  
good!

We  
can't  
stop  
it!

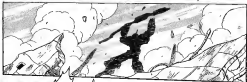

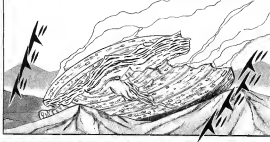

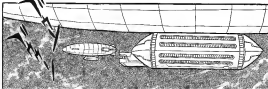

...the  
quantity  
was the  
looking  
for.

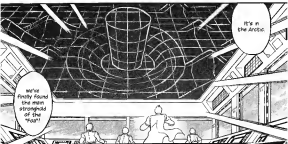

## Ch.VII Warped Space

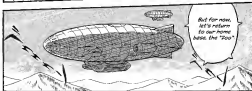

It's in  
the Arctic.

We've  
finally found  
the main  
stronghold  
of the  
"Zoo!"

Humanity  
can go on  
a counter-  
offensive!

Thanks to  
the info you  
guys brought,  
we can win!

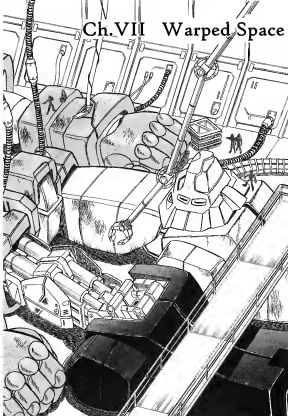

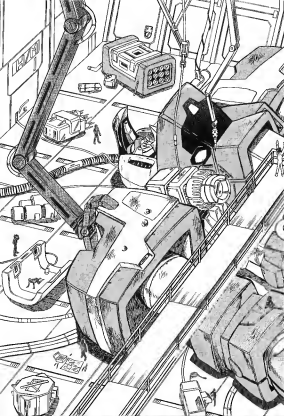

But for now,  
let's return  
to our home  
base, the "Zoo."

...we're  
not leaving  
this god  
to another  
god!

Whatever  
the circum-  
stances  
may be...

I don't care  
about being  
reasonable  
anymore

...Shapiro  
Nizhevant!

The  
"Pillar"...  
that's  
where I  
find him...

The same  
scene from  
the day  
when I lost  
everything.  
He replayed  
it right in  
front of  
my eyes!

That's  
unforgivable!  
I'll make him  
pay for this!

He made  
me see  
it... the  
scene that  
I never  
wanted to  
see again.

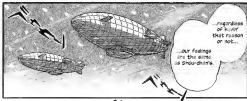

That  
guy...

But this is the only thing we can do now!

I'll come wake you up later.

Duty

You can sleep for a little longer.

Until then, I'll take your word for it...

Some day...

...you will tell me the truth, right? Show...

We're approaching the "Pillar"!

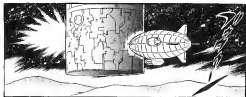

All crew, battle stations!

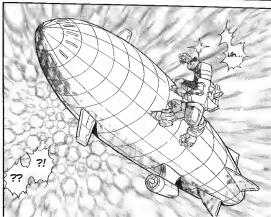

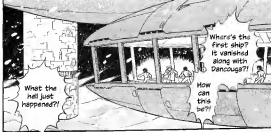

All crew, battle stations!

...and  
enter my  
"Colosseum".

Come,  
"qualified  
ones".

Come  
to  
me...

No... it's the  
"Four" leader  
inside it?

The  
"Four"?

Huh? What's  
this voice  
I'm hearing?

And will  
be allowed  
to stand  
before me.

Why...  
though?

Geatard...

Is this  
some  
kind of  
a joke?

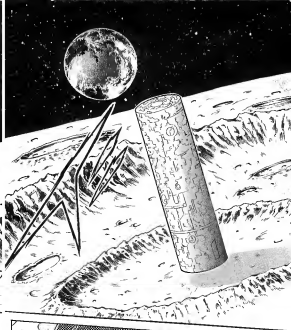

Only those  
who win...

...will be  
considered  
"truly  
qualified"

And  
then,  
fight!

What's all that stuff?

Wrecked machines?

Someone's comin' to greet us already

...and was  
named  
Shuppa  
Nishidai...

He became a  
"collaborator"  
by his own  
volition...

Starting on all of  
that same year,  
he began to  
participate in  
"human hunting",  
the extermination  
of our opposition...

...and  
excited  
at it.

Stop  
it.

Stop  
it!

...which  
involved an  
obsession  
with  
ranticulating  
his past.

It consists  
of collecting  
young  
organised  
referred to  
as "little  
brothers and  
sisters".

Addendum:  
TSCC  
possesses  
a particular  
habit...

Also, he appeared  
conscious  
on his face  
in front of  
a mirror...

...to  
make  
himself  
resemble  
his  
mother

Stop  
it!

It is unknown  
how much impact  
the experiments  
had on his  
growth process

What?

Why...  
are you  
here?

There's  
no way  
I'm going  
to...

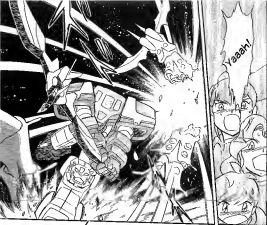

...before  
the  
bullet!

Stop it!  
I've had  
enough  
of this  
made-up  
story!

I'm  
Shouji!

I am...  
Shouji!

But...  
you're  
not him

You have  
the same  
name as  
my little  
brother.

I know

It's okay...  
big brother  
will find you...

I'm sure  
he's scared,  
crying some-  
where...

Poor,  
poor  
Shouji...

He was  
just a  
child...

Shouji was  
younger  
than you.

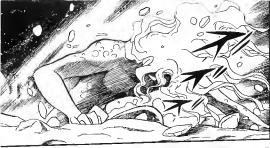

...I obtained  
this power!

The  
hell is  
that?!

What?!

You're  
telling  
me  
that's...

Is that...  
Shapiro?

W-What  
am I  
looking  
at?!

...Shapiro  
Niez-  
heaven?!

If that's true...

If that's true, so what?

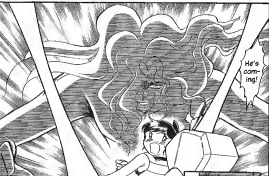

Final chapter **Those waiting at the end of the road**

Shou-chan,  
how did ya  
appear out  
of thin air like  
that?

Uwaaaah!

Who?

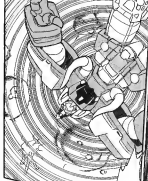

I-I don't know!  
I can't analyze it!

W-What was that  
just now?

What kind of  
attack...

Aaaaah!

*Fight!  
Fight,  
qualified  
ones!*

Kuh!

*Do you  
think you'll  
be able to  
reach the  
"Pillar" like  
that?*

*He he he!  
What's  
wrong?  
Are you  
done  
already?*

Ugh!

What  
are we  
supposed  
to do?!

We haven't  
been able  
to lay  
even a  
finger  
on him!

We can't  
even call  
this a  
fight...

It's  
"psycho-  
kinesis"!

Whu??

I figured  
out what  
his power  
is!

Look!

Guspiro didn't simply grow to giant size!

Most of his body is now composed of brain matter! His attacks aren't physical!

They consist of powerful psychic waves!

There's still a way you can fight...

Wait! Calm down!

It's all over!

We can't win!

No way! Psychic powers? What do we do?!

Professor Hattori, is that you?!

Pro-fessor?!

That voice is...

...?!

Some of us managed to take refuge in here...

You see, supply ships like this one have an airtight room for experiments...

Though we have no idea how long it's gonna last... He he he...

Professor, you're alive!!

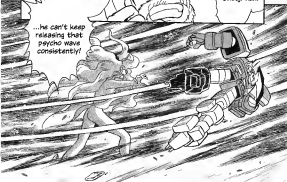

Yes... we just barely made it...

As long as that guy's still a living organism...

Listen up, Shouji-kun!

...he can't keep releasing that psycho wave consistently!

*The power  
of the move  
must fluctuate  
in a rhythm, sort  
of like breathing!*

*Attack him  
when the  
move is at  
its weakest!*

*No  
matter  
what!*

*Aaaa!*

*Just hang  
in there  
until then!*

*Shou  
Dencouge  
can't take  
any more  
of this!*

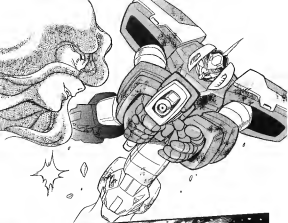

Now,  
Show!

...acti-  
vate!

Dancou  
Cannon...

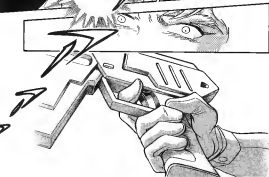

Shapiro!

Fuck  
off!

We  
did it,  
right?

We  
did  
it?

For the first time in his life...

For the first time in his life...

Well, it  
can't be  
helped. He  
also had  
fears.

Such an unexpected  
result! I had thought  
that Shupiro possessed  
an overwhelming  
advantage.

Shupiro  
was  
broken.

It threw  
him off  
balance.  
He will  
fail.

...but the burden  
of that power was  
too much for his  
brain to handle.

He chose to  
hasten his  
strengthening  
process...

He he  
he he  
didn't  
do...

...broken  
articles  
really are  
useless

"Shou-  
chan?"

Whose fault  
do you think  
it is that he  
turned out  
like that?"

He was  
broken  
A feeling?

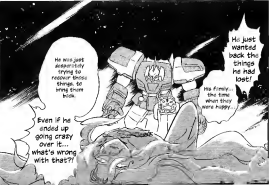

...in the cruel  
environment  
that you  
created.  
That's all

This man...  
he was just  
doing his  
best to  
live...

Shut  
the  
fuck  
up!

What?

What?  
What's  
happening  
now?

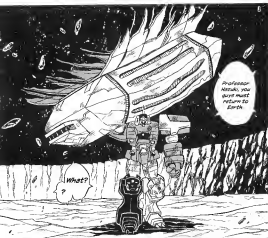

We're still  
hanging  
in there,  
Shogun!

Are you  
dead yet,  
Professor  
Hazuki?

Not  
Not  
yet.

Professor  
Hazuki, you  
just must  
return to  
Earth.

What?

...leads  
us straight  
to hell!

Even  
if this  
path...

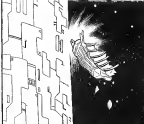

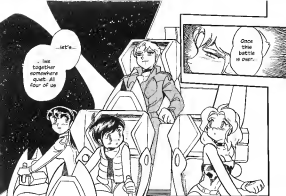

Shouji-  
kun!

Make sure  
to come  
back! I'll  
be waiting!

Don't  
give  
up!

Very  
well,  
if you  
insist.

If we  
get back  
alive...

...I'll let ya have  
your way with  
this nice body  
of mine, as much  
as ya want!

I wonder...  
what  
should  
I do?

Though I  
don't really  
get what  
that  
means.

Then,  
me too!

--well, all  
you do,  
right?

Don't forget  
it, Shou-kun!  
Whenever  
you're feeling  
"empty"...

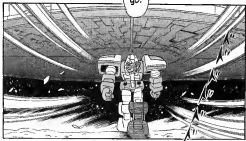

--we'd make  
Shou laugh  
his ass off  
some day,  
remember?

Besides,  
we promised  
that--

Let's  
go.

*Welcome,  
humans.*

*Well done.  
You've won  
your way  
here!*

What?

*As a reward,  
you'll gain  
eternal life...*

*...and have  
the honor  
of fighting  
at the  
service  
of God.*

Heh

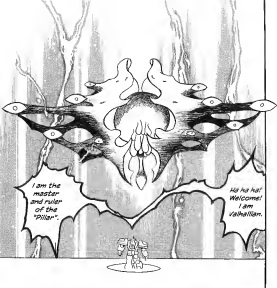

*...that I've  
gathered  
throughout  
the ages*

*Warriors  
from all  
over the  
cosmos...*

*These  
are  
warriors...*

What's  
all this?

*I am the  
master  
and ruler  
of the  
"Pillar".*

*Hee hee hee!  
Welcome!  
I am  
Vathellan.*

*I am  
"God".*

*The first  
specimen  
to attain  
immortality*

*I am  
the most  
advanced  
creature  
in the  
cosmos*

Trials?

To perform  
the "Trials  
of God".

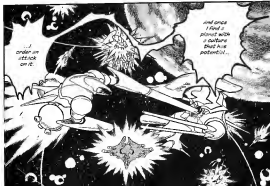

And why  
would "God"  
attack the  
earth?

...I search  
for superior  
warriors!

He he he!  
While traversing  
endless time  
and infinite  
space...

...I  
order an  
attack  
on it.

and once  
I find a  
planet with  
a culture  
that has  
potential...

Why?

Why?

...Evo-  
lution!

In order  
to sur-  
vive...

That's right!  
Those you  
have taken  
to call "Pods"!

You were  
attacked by  
the "Locusts"  
who didn't  
have the ability  
to become  
qualified.

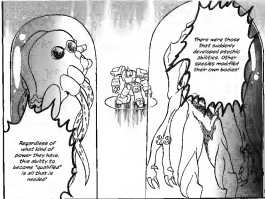

It's possible  
to understand  
an exclusive  
process of  
evolution!

By putting  
lifeforms  
through trials  
that push  
them into  
desperate  
measures...

"Intelligence"  
"Strength"  
The  
development  
of powerful  
weapons.

Lifeforms  
trying to  
survive the  
extinction  
of their  
species...

...make use  
of any means  
necessary to  
quickly improve  
their abilities.

*Regardless of  
what kind of  
power they have,  
the ability to  
become "qualified"  
is all that is  
needed!*

*There were those  
that suddenly  
developed psychic  
abilities. Other  
species modified  
their own bodies!*

*To accomplish  
the mission  
of "making  
humans  
suffer" that  
I had assigned  
to them!*

*That's right-  
they were  
already moving  
as I told  
them to*

*You thought  
that the  
movement  
pattern of  
the "Kuu"  
was strange,  
didn't you?*

*What...  
did you  
say?*

*It's a  
"game".*

*So... what's  
your reason  
for doing  
all of this?*

That's  
why I must  
enjoy myself  
leading soldiers  
to fight each  
other...

He he he! Do  
you really not  
understand?  
God never  
dies!

...and  
kill each  
other!

Just for  
that...

Only those  
that surpass  
"Beast" and  
"Human"...

But I have  
no use for mere  
animals

All of this,  
just for  
that?

One time, the  
dominant species  
of a certain  
planet was  
pushed so far...

...that  
they  
became  
animals?

...can  
become  
the  
"warriors  
of God!"

Now come,  
Sawdough!

You're the only  
ones who earned  
the "qualification"  
on the harsh trials  
of Earth...

...who earned  
eternal life!  
Right...

Out of the  
billions of  
humans on  
Earth, you're  
the only  
ones...

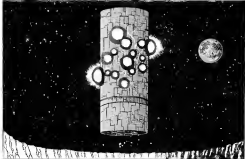

It's the  
desire of  
all living  
creatures!

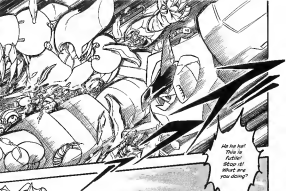

Your days of  
serving the  
Earth and  
fearing death  
are over...

What a  
wonderful  
opportunity  
this is!

He-he-he!  
You  
understand,  
don't you?

*As for her!  
This is  
futile!  
Stop it!  
What are  
you doing?*

*There is  
no point  
to this  
What  
are you  
thinking?*

*This is most likely the only opportunity that anyone of your "human" species will ever have to obtain immortality. Why do you reject it?*

*There is no way you can possibly win...*

*...so why do you even fight?!*

We'll  
never  
forgive  
you!

We're  
really  
angry  
right  
now!

Shut the  
hell up  
already,  
would ya?!  
You goddamn  
monster!

He he he! Fools!  
You won't  
forgive me,  
you say?  
You're nothing  
but animals  
who don't  
know reason!

King!

Now, vanish!  
As the  
animals that  
you are!

*Only the strong shall win! That's an absolute truth of the cosmos. It's a rule!*

*Why would the winner require forgiveness or permission to do with the loser as they see fit?*

*Now, disappear!*

...it because  
you never  
fight your  
own battles.  
Ever thought  
about that?

Maybe the  
only reason  
you're  
immortal...

What do  
you call  
those who  
have  
surpassed  
a god?

Tell me,  
"God"...

X...  
You  
can't...

Answer me!

Aaaaah!

The  
"Pillar"  
is disap-  
pearing!

This is  
a chain  
reaction  
with the  
"Pillar" on  
the Moon!

The  
"Pillar"!

The  
"Pillar"!

The  
"Pillar" is  
collapsing!!

There's no  
retaking  
it!

We've  
confirmed an  
explosion on  
the Moon!

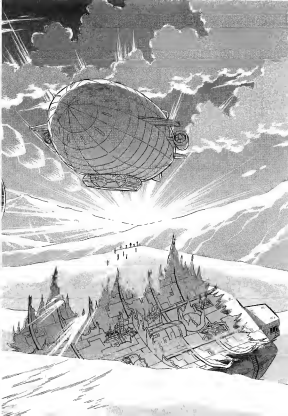

Let's...  
do it!

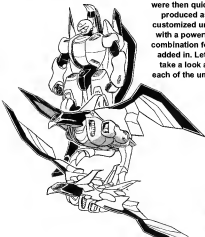

Super Beast Machine God Dancouga BURN - End

# Mechanic Commentary

## Eagle Fighter

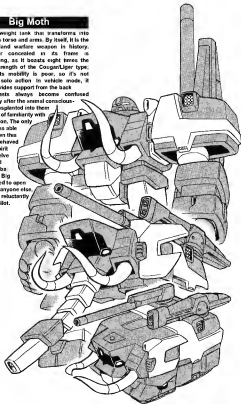

A jet fighter that transforms into Densetsu's head and back. This unit carries the only Graviton Field (GF) generator that mankind was able to produce. As made evident by its shape, its ability to fly is not the result of aerodynamics, but rather of the emission of gravitons. Because the GF generator is difficult to control, the development team connected it directly to the eagle emotion program coded into the computer; rather than writing a program to determine precisely how to emit gravitons in order to fly, they allowed the prideful bird to fly freely. Right before rolling out, the unit went berserk and flew into the sky, but test pilot Kazama Shouji tamed it with his piloting ability. Since then, they've had a partnership that works like that of a leader and his subordinate.

The four units manufactured for the BURN project were originally intended as prototypes for mass production models, but mass production was considered impossible due to the decline of mankind's resources. They were then quickly produced as customized units with a powerful combination form added in. Let's take a look at each of the units.

## Big Moth

The heavyweight tank that transforms into Dancouga's torso and arms. By itself, it is the strongest land warfare weapon in history. The power concealed in its frame is overwhelming, as it boasts eight times the physical strength of the Cougar/Uiger type; however, its mobility is poor, so it's not suited for solo action in vehicle mode. If mostly provides support from the back. Cyber Beasts always become confused immediately after the animal consciousness is transplanted into them due to lack of familiarity with their situation. The only one who was able to calm down this originally behaved elephant spirit was the twelve year old girl Fujino Futaba. Since then, Big Moth refused to open its heart to anyone else, and Futaba reluctantly became a pilot.

## Land Cougar/Land Liger

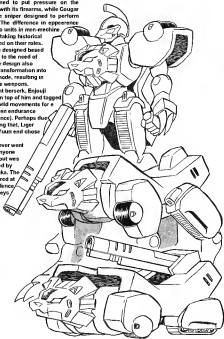

Transforming into Descouge's legs, these units were of the same type to begin with, in order to generate combat variation (check the first volume for Land Cougar's illustration).

Liger is designed to put pressure on the enemy upfront with its firearms, while Cougar is a long range sniper designed to perform one-shot kills. The difference in appearance between the two units in men-machine mode is due to taking historical inspiration based on their roles.

Both units were designed based on big cats due to the need of being agile. The design also facilitates the transformation into men-machine mode, resulting in excellent mobile weapons.

When Liger went berserk, Enjouji Yuzui jumped on top of him and tagged along with his wild movements for a whole day (like an endurance reflex performance). Perhaps due to acknowledging that, Liger began to trust Yuzui and chose her as his pilot.

Land Cougar never went berserk or let anyone approach him, but was eventually tamed by Fukumori Shizuka. The two of them stared at each other in silence for two whole days and reached a mutual understanding. The reason is unknown.

## Dancouga

The combined form of the four GURU project units. Its objective is to make the GF generator installed on the Eagle operate at full power by connecting it directly to the engines of all four units. Dancouga can expand a graviton field around its entire frame, which acts as a second layer of armor on top of its physical armor plating. In this state, it's basically impervious to damage. The gravitons can also be used offensively, causing a punch to be hundreds of times more destructive than it looks.

Upon combining, the pilots move to a combined cockpit installed in the Bag Moth, where they are protected from impacts by yet another graviton field.

Its weight is twice that of the Bag Moth by itself, but its output increases by a factor of four, so combining is beneficial. When the four wild instincts, the four computers and the willpower of the four pilots become one, the whole ensemble functions as a single super Meform.

Its main weakness is the constant overheating, which makes long-term combination impractical (although there is no established time limit). However, this weakness was overcome in the preparation for the final battle, when the multi-step transformation was discarded and the parts that were rendered useless by this were replaced with large quantities of coolant.
